

# Erica x darleyensis WINTER BELLES® 'Lucie' - Pépinières Renault

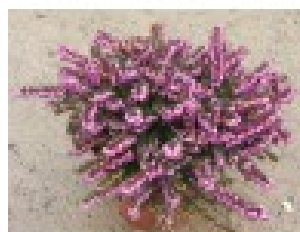

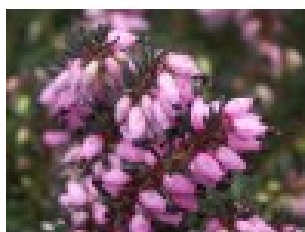

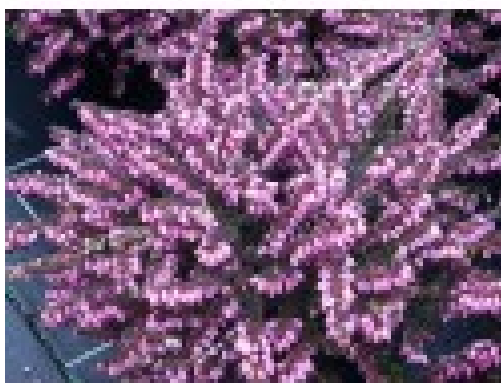

**Product** Erica x darleyensis WINTER BELLES® 'Lucie'

---

**Reference** 34

---

**Product Image**

---

**Summary** All winter long, a spectacular ball of red flowers of the WINTER BELLES ® range.

---

**Description**

'Lucie' possesses all the qualities of the 'Kramer's Rote' variety, where it comes from, and distinguishes itself through the following qualities:- magnificent, slightly later violet-red flowers. The twice as big bell-shaped flowers give an impression of abundant flowering. Appearing in the month of December, it offers a great show right up to March.- compact and ball shaped growth.- dense, dark green foliage.  
The WINTER BELLES ® range is made up of 'Katia', 'Lucie', 'Phoebe' and 'Tylou'. Ea...
